Wheaton		Quantity			

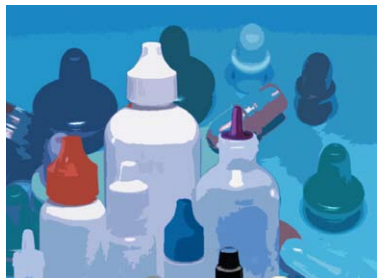

Dispensing Characteristics:

The general tolerance for the hole size in a pierced part is ± 0.003 inches.

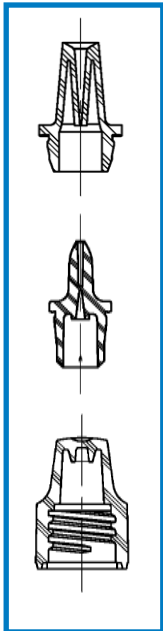

Average drop size for stock, controlled round tips

(8 mm - 20 mm) is $43 \mu\text{l} \pm 5 \mu\text{l}$.

Average drop size was calculated through statistical analysis of randomly selected dropper tips using distilled water at room temperature of approximately 78° F.
