Diagnostic

# PACKAGING PRODUCTS

## Product Highlights

- Maximum product recovery due to smooth transition from the sides of the vial into a conical well
- More economical than other high recovery vials
- Type I borosilicate glass
- Shrink wrapped modules in plastic corrugated trays to reduce particulate
- Screw thread finish for resealability
- Available in 2, 4, 8, and 20 mL sizes, 10 mL coming soon
- Methods of Sterilization: Autoclave, ETO and Dry heat
