## ELITE Packaging Vials™

NEW PRODUCT  
*Splash*

The new ELITE Packaging Vials™ are specially designed to meet your packaging needs for small fills.

- Unrivaled Cap Seal that exceeds DOT and IATA regulations ensuring ultimate protection for your products during transportation
- Conical Well Designed bottom allows for maximum content retrieval
- Available in five sizes: 1.2, 2.0, 3.0, 4.0 and 5.0 mL
- 7 Caps color options for convenient identification

The new ELITE Packaging Vials line ranges in size from 1.2 mL to 5 mL and offers options in freestanding and round bottom as well as externally and internally threaded caps. These vials are made from low binding, radiation grade, virgin polypropylene to provide the most ELITE Package for your product. These are available non-sterile or sterile, in case quantities of 1,000. The vials are packed double bagged in 10 bags of 100 or 1 bag of 1,000. Caps are packed in matching quantities. Caps are available in multiple colors to provide differentiation of your products.
